## STUDENTS UNION:

The Student Union will be working on planning some winter events in the upcoming months. We would like to thank all of the members of the Students Union for their efforts in promoting school spirit and student engagement!

## STUDENT SUCCESS:

We are often looking for various ways for our students to collaborate. In December we finished up our High School Mentorship Class where our students went to the elementary school and read with the younger students. Within our own school, we took a multi-graded approach to our CTF building challenge and had students in different grades work together to design, build and decorate gingerbread houses. We will continue to look for opportunities like this for our students in 2019!
